Introduction

We are proud to be introducing the Jog Spa™ into the US market. The Jog Spa™ is the peak of evolution in the Spa industry. A Spa that is large enough to move around providing relaxation hydro therapy and exercise.

Imagine the difference the Jog Spa™ will make in your life. A refuge from the pressure of work, a rejuvenating break from the constant challenges of modern life and a revitalising area for enjoying the company of friends and family. Jog Spa™ provides a place for a calm and relaxing break in your life, and it blends beautifully into your environment.

Wellness surpasses all boundaries with Jog Spa™ with a unique collection of experiences, to be enjoyed in any place and in any season. Indoors or outdoors, the Jog Spa™ world achieves new boundaries of wellness: memorable moments to be shared with loved ones to transform spaces, places, moments and gestures into new ways and styles of life.

Jog Spa Features

8.4ft Jog Spa
Spa Dimensions
8.4ft X 7.4ft X 46" inches

The amazing all new Jog Spa combines all the benefits of Areobic Exercise, Running, Jogging, Walking, Rowing as well as Relaxing with the Family in this 1 to 5 person Spa! The Patented Design of the interior of the Spa allows for Jogging area as well as the benefits of Hydrotherapy that a traditional Hot Tub offers.

With Traditional Spas keeping you confined to the center, you're not able to move around and really stretch your legs or engage in any water aerobic activity.

The Jog Spa allows for you to have conversational socializing while leaning against the wall. The Jog Spa which has been 38+ years in the making, is a virtual first in the Hot Tub industry. Our Patented Horse Shoe Shape design offers you the power of 750 Gallons Per Minute of water direct from 2 River Jets to Jog or Walk or Run in place while holding the grab bar and the comfort of sliding side to side without bumping into molded seating! The depth of the Spa is 46Inches, putting the Water level at your chest not your waist. Exercising/jogging/stretching/mobility all in One Jog Spa !!!! The Jog Spa is built for therapeutic value.

Technically Superior

Frame – the frame of the Jogspa is built to stand the test of time. Fabricated from industrial grade galvanized steel, the finished frame is then dip-coated and painted to withstand the harshest environments. Unique to Jogspa, the top rail of the frame is laminated into the shell structure to form a direct connection to the vessel.

This provides the structural strength to engineer the depth of the Jogspa. Another exclusive feature to Jogspa is the vessel rib system. All Jogspa vessels are equipped with galvanized steel ribs. During the reinforcing process these ribs form a continuous loop around the vessel. Once welded to the top rail of the frame and laminated with composite fiberglass, the frame and vessel combine to make it the strongest design.

Steel Frame Construction

Clean Water

The Clean Jogspa system combines the power of UVC light and Ozone, the same technology utilized in many communities around the world to purify drinking water. Clean Jogspa kills 99%* of micro-organisms, bacteria, viruses and parasites while oxidizing debris left behind. This system is an integral part of every Jogspa.

M7 TECHNOLOGY

The Jogspa M7 technology is a revolutionary new hardware/ software platform that completely eliminates mechanical sensor switches and remote through-wall temperature sensors. The M7 platform features two identical solid state sensors that mount inside the heater manifold. These “Smart Sensors” accurately and reliably measure water temperature while monitoring critical water conditions without the possibility of failure due to mechanical switch malfunction.

Power & Equipment

4

Jogspa utilize industrial duty dual speed 56 frame pumps in all of their 240 volt models. The 56 frame motor is larger, more powerful and delivers higher water flow for better jet performance than the 48 frame motors found in most applications.

They also run cooler for longer life and have lower amp draw for lower operating costs.

Jog Spa Specifications

Shell:	Aristech Acrylic Shell (Lucite sterling)
Massage Jets:	52 - Chrome Stainless steel jets
Fountains:	6 - Chrome fountain jets with LED lights
Grab Bar:	Chrome Grab bar
Ozonator:	200mg/h ozonate generator
Insulation:	Insulation for Shell
